Revision Code: <u>A-2</u>		

OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Migration	Anadromous
Coho Salmon	July 28, 1993		XXXX		XXXX

Provide any clarifying information, including number of fish observed, location of fish survey data, etc. Attach a copy of the fish survey data, if available. Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls.

Comments: Don Cornelius and I used a backpack fish shocker to observe coho fry and determine the upstream extent of anadromous fish habitat in tributaries to White River (see blowup of Anadromous fish atlas attached and smaller scale logging unit layout map which shows fish habitat in this and other White River tributaries).

Name of Observer (please print): John Palmes and Don Cornelius, Habitat Biologists

Date: Oct. '26, 1993
